

HYWEL DDA CARMS, GLAN GWILI HOSPITAL - TESTIMONIAL FOR JOBS FAIR

- **Colo-rectal Surgery:** Excellently organised team, thorough in their approach to creating a suitable learning environment for foundation trainees
- **Gastroenterology:** The team is excellent
- **Emergency Medicine:** Protected A&E Departmental teaching is really useful and has made me feel more confident with my practice (e.g. improved confidence with looking at ECGs). Most senior staff are approachable and are happy to provide teaching to junior doctors on the shop floor.
- **Haematology:** Has provided an insight into an area of medicine that not many will have experienced.

PRINCE PHILIP HOSPITAL, LLANELLI - TESTIMONIAL FOR JOBS FAIR

FY1 Job in D&E PPH

Exposure to a wide variety of acute and chronic general medical problems. Able to build a wide skill set and perform practical procedures daily. Very supported by the team. Excellent first job as it gives you a good grounding.

FY1 Job in Gastroenterology PPH

Both consultants are really supportive - keen to teach, listen to your concerns and ensure you are reaching your educational needs with regards to teaching. They both have an open door policy which they make very clear and ensure you are comfortable talking to them about any issues surrounding the placement and equally issues outside of the placement that may affect your working life.

FY1 Job in Haematology/Palliative Medicine PPH

Supportive and friendly staff with decent amount of hands on experience and teaching. Thoroughly enjoyed the post, and it has made me consider the specialty for future practice. Many thanks to the team.
