# Welcome to South Wales

## Newport

Standing in the Gateway between England and Wales, Newport is steeped in a rich industrial heritage dating from the nineteenth century. Newport is surrounded by beautiful landscapes, which include the Wye Valley, the Vale of Usk, the Brecon Beacons National Park and the Forest of Dean.

Newport is home to the seventeenth century Tredegar House and the impressive 177ft Transporter Bridge. In addition to this Newport Cathedral has been a site for worship since the 6<sup>th</sup> century and is steeped in history.

If you're a sports fan we have the Newport International Sports Village, which includes the Wales National Velodrome and The Celtic Manor Resort which is home to the largest complex of championship golf courses in Europe and hosts of The Ryder Cup in 2010.

For further information on Newport and surrounding area please visit <http://www.newport.gov.uk>

## Abergavenny

Abergavenny is 20 miles from Newport, 18 miles from Brecon and 16 miles from Monmouth. Abergavenny is a growing market town and the surrounding area is mainly agricultural.

The town itself is steeped in history dating back to 57 or 58 A.D.. It sits in the Usk Valley and is surrounded by the Brecon Beacons and the Black Mountains, with the famous Sugar Loaf Mountain and Sugar Loaf Vineyard, which is well worth a visit.

If you would like to learn more about Abergavenny visit <http://www.abergavenny.net>

## Cwmbran/Llanfrechfa

Cwmbran is a new town in Wales which lies within the historic boundaries of Monmouthshire forming part of the county borough of Torfaen. Cwmbran meaning 'Crow Valley' is known for its many hills that rise 1000 feet and a favourite for both walking and climbing.

The famous Roman remains can be found in nearby Caerleon with the Amphitheatre barracks/baths and the Usk Rural Life museum that allows you a glimpse of 19<sup>th</sup> Century life- this is well worth a visit!

For all the keen golfers there is the Green meadow golf & country club to practise your 'hole in one' or for a leisurely stroll.

Cwmbran boating lake is situated a few minutes' walk from the town centre, a popular place for the whole family, dog owners and fisherman!

With Llanyrafon Manor, Llantarnam Abbey and the Congress Theatre there are many places of interest to see in Cwmbran.

If you would like to learn more about Cwmbran visit <http://www.visitoruk.com/Cwmbran/>

## Working at Aneurin Bevan University Health Board

Aneurin Bevan University Health Board was set up on the 1<sup>st</sup> October 2009 and replaced the former Gwent Healthcare NHS Trust and Blaenau Gwent, Caerphilly, Monmouthshire, Newport and Torfaen Local Health Boards. The Health Board is responsible for the delivery of health care services to more than 600,000 people living in the Gwent area. We are also responsible in partnership for improving the health and well being of local people.

We deliver to the populations of Blaenau Gwent, Caerphilly, Monmouthshire, Newport and Torfaen. In addition, services are provided to the residents of South Powys.

The catchment area of the Health Board is bounded by the Brecon Beacons to the North, the Rhymney Valley to the West and the Wye Valley to the East. Newport is the main town in the South. We have one Specialist and Critical Care Centre and 3 enhanced Local General Hospitals.

**The Grange University Hospital, Llanfrechfa**

**Royal Gwent Hospital, Newport**

**Nevill Hall Hospital, Abergavenny**

**Ysbyty Ystrad Fawr, Caerphilly**

In addition to these hospitals there are eighteen community hospitals in the area. There is also a range of specialist health centres, local clinics and primary care facilities providing medical, dental, pharmacy and optometric services along with facilities providing mental health and learning disability services.

FP1 doctors are based in The Grange, Royal Gwent and Nevill Hall Hospitals

FP2 doctors are based on all 4 sites

For more information on ABUHB visit: <http://abuhb.nhs.wales>

Chief Executive of Aneurin Bevan University Health Board: Mrs Judith Paget

Chairman, Aneurin Bevan University Health Board: Mrs Ann Lloyd CBE

The range of clinical cases you will be exposed to as a foundation trainee will facilitate the professional and educational development that is required of you during your first two years as a doctor. It is an ideal opportunity for you to learn from a broad range of cases in a supportive environment.

### Our Foundation Team:

Dr Helen Fowles, Foundation Programme Director ([helen.fowles@wales.nhs.uk](mailto:helen.fowles@wales.nhs.uk))  
Consultant in Respiratory Medicine

Mr Ashok Vaghela, Deputy Foundation programme Director ([ashok.vaghela@wales.nhs.uk](mailto:ashok.vaghela@wales.nhs.uk))  
Consultant in Emergency Medicine

Mrs Caroline Newman ([caroline.newman@wales.nhs.uk](mailto:caroline.newman@wales.nhs.uk))  
Foundation Programme Administrator

We are here to support you on your Foundation journey and are happy to hear from you with any questions, issues or concerns that you may have. Any contact that we have with you is strictly confidential.

Each Foundation doctor is also allocated an Educational Supervisor who will assist and support you with your training.

The Foundation Programme Curriculum outlines the framework for educational progression that will support the first two years of professional development after medical school.

In addition to the clinical experience you will gain in training, there are also weekly interactive bleep free teaching sessions provided for all F1's, equivalent to 7 days per year or 1 hour per week. Your feedback is collected following each session and we use this information to continually improve and grow the teaching experience.

F2 doctors are provided with bleep free teaching via local generic teaching days and All Wales Study Days. Feedback from these sessions is collected to continue to guide improvements.

We look forward to working with you.

### **Clinical Skills and Simulation**

As a Health Board we are always looking at new and innovative ways to deliver training in the most effective way. It is recognised that errors in clinical practice frequently occur as a result of poor team working and communication. Simulation of clinical scenarios is one way in which training can be improved.

ABUHB has recognised these challenges and have invested in clinical skills and simulation suites. Mr Ashok Vaghela (Consultant in Emergency Medicine, RGH) and Dr Francis Subash (Consultant Anaesthetist, RGH) are the clinical leads for this development.

The ABUHB Foundation Programme is an ideal opportunity for you to engage in this type of medical education. A number of simulation teaching events will be taking place during your time with us (COVID permitting), which we hope you will take particular advantage of.

### **Counselling and Support**

Our Foundation Team are always on hand to provide support and guidance. You will also find friendly and approachable staff in the Education Centres who are able to offer guidance on all aspects of medical education. Local Faculty Leads are available for careers advice and the Foundation Programme Directors can lead you through your Foundation years.

All F1's and 2's are invited to attend a local induction where you are welcomed to the Health Board. You are also invited to 1:1 Welcome meetings with the Foundation or Deputy Foundation Programme Director. This is an opportunity for you to share anything that you feel you may need support with, from health concerns to educational and training issues.

## Services Provided by the Health Board:

Emergency Medicine	Gastroenterology	Ophthalmology
Adult Medicine (Acute & General)	General Surgery	Paediatrics
Anaesthetics	Gynaecology	Radiology
Care of the Elderly	Haematology	Rehabilitation

Critical Care and Outreach	Neurology	Trauma & Orthopaedics
Day Surgery	Obstetrics	Urology
Dermatology	Orthogeriatrics	Vascular Surgery
Diabetes & Endocrinology		
ENT		

## The Grange University Hospital (due to open November 2020)

Our new specialist and critical care centre – The Grange University Hospital – will provide a centre of excellence in the centre of Gwent to treat the area’s sickest patients. It will provide care for people who are seriously ill or have complex problems or conditions that cannot safely be managed in one of the enhanced Local General Hospitals (eLGH). The Specialist and Critical Care Centre will have 560 beds (including trolleys and cots) and feature a 24-hour Acute Assessment Unit, Emergency Department and Helicopter Pad.

It will provide a 24/7 emergency admissions service for patients requiring Specialist and Critical Care services and after 10pm each night, admissions from across Gwent and South Powys.

- All emergency admissions for major illnesses and injuries and those in need of resuscitation;
- All Emergency Surgery and Trauma care
- All Major and Co-morbidity (more than one serious condition) Surgery
- Emergency Assessment Unit
- Critical Care
- Acute Cardiac Unit
- Cardiology Inpatients
- Hyper Acute Stroke
- Acute Medicine
- Obstetric inpatients and high-risk births
- Children's Assessment Unit
- Neonatal Intensive Care and Special Care Baby Unit
- Paediatric inpatients
- Paediatric inpatient surgery
- Diagnostics
- Emergency endoscopy

However minor injuries or illnesses will not be treated at this site and there will be limited outpatient provision as this will be available at the enhanced Local General Hospitals.

### Parking

- 600 car parking spaces for staff
  - 300 spaces for visitors
- 20 Spaces Children’s Assessment Unit

## Hospital Provided Accommodation

All Foundation Doctors in Wales are offered free hospital accommodation for the duration of their Foundation Year 1. In the unlikely event that there is no accommodation available, you will be able to claim expenses for this period instead.

Below we have briefly outlined the accommodation that is available within this Health Board:

### Royal Gwent Hospital.

Single accommodation is available at the hospital with shared facilities. FP1's need to be resident throughout the duration of their period of work.

There is limited parking on the hospital site with the rear of the site being reserved for staff parking. In addition there are two large car parks across the road from the main hospital entrance offering approximately 500 spaces. Limited parking for junior doctors on late shift duty is reserved in the Friars Education Centre car park until 10.00am each day. This is on a first come first serve basis and dependent on the spaces not being reserved for meetings within the Centre.

### Mess

There are excellent Medical and Surgical Junior Doctors' Messes, both of which are well furnished with satellite TV.

### Catering

The Belle Vue Restaurant on level 3 of the hospital is open from 7.30am to 20:00hrs and provides a full hot menu which is available at a subsidised rate for staff. In addition to this there is a Costa Coffee Shop on Level 1 of the hospital. Opening times for the coffee shop vary.

### Library/IT Facilities

The hospital has a 24 hour library, which is located just behind the main hospital building and accessed via swipe card. In addition to an extensive library collection, there is a quiet study area and large computer suite. The librarians are available to offer teaching support in relation to literature searching and research.

### Educational Facilities

The Education Centre is the hub of educational activity at the Royal Gwent Hospital and is based in an old Victorian building called The Friars which can be found at the rear of the hospital site. The Centre is staffed from 7.30am to 5.00pm, Monday to Friday. All ABUHB are provided with swipe access to the centre between 9.00am and 5.00pm.

### Social Life

There is an extensive social network throughout the hospital focused on the two messes. Newport itself has a number of pubs, clubs and restaurants, and with the hospital's close proximity to Cardiff and Bristol means extensive access to all these cities have to offer.

## Nevill Hall Hospital

### Mess

A lounge is provided along each floor of the residence with a television. There is also an excellent Junior Doctors mess, which is well furnished with satellite TV.

### Accommodation

Single accommodation is available at the hospital.

### Catering

The dining room on the first floor is open for hot meals from 7.00am until 7.30pm. Vending machines for drinks and snacks are available at all other times in the coffee lounge situated in the dining room

A buffet bar in the main outpatients department is run by the League of friends and is open weekdays from 10.00am to 4.00pm. In addition, a shop in the main concourse is run by the WRVS and opens from 10.00am to 6.00pm.

### Parking

There is a large car park adjacent to the main hospital building. Parking is free of charge.

### Library/IT Facilities

The 24 hour library is situated on the ground floor of the Education Centre. It has a comprehensive range of books and journals. 24 hour access is obtained via a swipe card security system. The library is reference only out of hours. There is a separate computer room, which can be accessed out of hours (except on weekends).

### Educational Facilities

The Education Centre at Nevill Hall is a purpose-built facility providing a base for all Postgraduate and Undergraduate education. As well as housing lecture theatres and seminar rooms the Centre also has a clinical skills lab equipped with low fidelity skills equipment.

F2/36a/b/c	Cardiology	General Internal Medicine	Anaesthetics/Intensive Care Medicine
F2/37a/b/c	General Practice (near peer teaching post)	Haematology	Geriatric/orthogeriatric Medicine
F2/117	General Practice	Acute Frailty/General Medicine	Haematology

### Important Information

The placements and post descriptions provided are intended as a guide to inform applicants only. This does not form part of an employment contract and the Health Board reserves the right to alter any placements in line with requirements.

Please note at the time of writing (August 2020) all rotas for our Clinical Futures Programme and The Grange University Hospital opening remain under consultation and where we have provided rota details this is a guide only. We will aim to update this as soon as we are able.

**Programmes can change at short notice and banding may be amended.**

<b>Acute Frailty/General Medicine</b>	<b>Nevill Hall Hospital</b>
Programmes:	FP2 Post 117
Banding: Likely to be 40%	<p>Rota Details:</p> <p><b>On-Call</b> - Exact arrangements to be confirmed – but likely to contribute to approximately 1 in 16 tier 1 Medical on call rota, covering Nevill Hall Hospital Medical Admissions for day/twilight/night rota pattern, and therefore receive 40% Banding supplement for this post.</p>
<p>Duties include :</p> <p>Working in a short stay unit for frail patients (not defined by age) it will be busy, ensuring decisions are made rapidly and no time is wasted in hospital for each patient. This will break the mould of the usual “COTE ward” as senior decision makers are always available, rather than a prescribed twice weekly consultant ward round and MDT.</p> <p>Working closely with acute medicine to address issues related to frailty in the context of acute medical illness. This would include pragmatic decision making with the patient and/or family about the burdens and benefits of treatments and investigations.</p> <p>Specific experience of assessing movement disorders, stroke, falls, syncope, continence, wounds/ulcers, nutrition and more. These are not necessarily the most acute skills, but are transferrable to any career in medicine and if taught well, will transform the care of older adults. A supportive learning environment with educational supervision that will encourage professional development, whatever the long term plans of the trainee happen to be.</p> <p>‘It’s basically COTE, but not as you know it, or COTE on speed’</p>	
Educational Meetings:	FP2 Teaching Days (Programme provided at induction)
Educational & Clinical Supervisors:	Dr K Barnes
